DETAILED ACTION

1. Applicants' Response to Restriction Requirement, received 7 October 2004, is acknowledged.

Applicants elect, without traverse, Invention X, claims 6-9, drawn to DNA, vector, host cells which encode SEQ ID NO:4, classified in class 435, subclass 69.1.

Claims 1-5 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Likewise, claims 6-9 as drawn to SEQ ID NO:2 or SEQ ID NO:8 or SEQ ID NO:10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

2. Claims 6-9, drawn to DNA, vector, host cells which encode SEQ ID NO:4 are under consideration.

Priority Statement

3. The priority statement at the beginning of the specification should be updated to reflect the current status of all priority documents.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 6-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1645

The claims depend from a nonelected claim 1 or 2. Claims 6-9 are also directed to nonelected inventions, i.e., SEQ ID NOs:2, 8 and 10 in addition to the elected invention, SEQ ID NO:4.

Because claims 6-9 remain dependent from claim 1, it is unclear what are the metes and bounds of the phrase in claim 1, "at least about 85% sequence identity", e.g., 85 ± 5 or $85 \pm 30\%$.

Conclusion

6. No claims are allowed.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney P. Swartz, Ph.D., Art Unit 1645, whose telephone number is (571) 272-0865. The examiner can normally be reached on Monday through Thursday from 5:30 AM to 4:00 PM EST.
